EXPERIENCE

Feed the Children
2017 - *today*

Title - Front-End Web Developer

- **Web** - Designed and created web pages while also updating existing content on current pages. Lead creation of new best practices implementation for web creation.

- **Email** - Designed and created emails both through email clients like MailChimp and HubSpot. Emails were also coded from scratch for other email clients in use. Created A-B tests.

- **Web Ads** - Created animated and single frame banner ads in 6-8 sizes for each campaign.

- **Marketing** - Completed training in communication for non-profit marketing. I used this knowledge to create copy for many of our digital campaigns.

Right Point Creative Consulting
2015 - 2016

Title - Director of Development

- **Web** - Designed and created websites for small churches, businesses and individuals who needed a website on a budget.

- **Email** - Designed and created emails through MailChimp. We did not create custom coded emails as this was a budget and time focused group doing work as cheap as possible for our customers.

Freelance
2014 - *today*

Title - Front-End Web Developer

- **Web** - Designed and created websites for clients. I have created Facebook and Shopify stores for clients who did not want a website.

- **Email** - Designed emails for clients.

EDUCATION

Team Treehouse Tech Degree

2013 - 2014

An amazing online coding school that prepares you from no experience to job ready. It was recommended to me by a developer in the Los Angeles area who's company partnered with them to keep the development team up to date. Treehouse is also partnered with Google Developers, Microsoft, and IBM.

DEVELOPER & DESIGN SKILLS

Developer Skills		Design Skills		Others Skills
